GREAT QUANTITY OF BOOZE WAS SOLD

By Wathen and Knebelkamp, Evidence Shows, and They Are Held To Grand Jury

Louisville, Ky., Jan. 28—R. E. Wathen, distiller, and W. F. Knebelkamp, manager for the Wathen company, were held to the federal grand jury yesterday after a hearing before United States Commissioner Joseph A. Craft. They are held on charges of violating the prohibition laws and prohibition enforcement laws, failure to place revenue stamps on the whisky sold and defrauding the government of revenue tax. Sixteen witnesses were introduced by the government in the examining trial of Wathen, at the conclusion of which Judge Craft overruled the motion of the defense asking for dismissal.

According to the testimony introduced by the government, which was uncontested by the defense, who placed no witnesses on the stand and asked few questions in cross-examination, 8,159 cases of whisky were transferred on January 2 from the R. E. Wathen distillery, owned by R. E. Wathen & Company, former whisky dealers. It was shown that R. E. Wathen & Company were not licensed to deal in whisky at the time the transfer was made and that Wathen is the president and Knebelkamp the manager of the company.

Various sales of whisky from the transferred stock, on which taxes had been paid for "medicinal purposes" to the amount of \$53,742.48, were proven by former saloon keepers who purchased and sold it for beverage purposes. No revenue stamps were on the bottles and cases sold, according to the evidence.

Stories were told by witnesses of how the whisky was loaded on trucks at night by the aid of a flashlight carried by a mysterious man at the Wathen warehouse whose face could be seen clearly; of payments to truckmen made in the dark; of orders to follow a truck with an Ohio license which led the way to Covington; overturned trucks, broken bottles and of the location of places to which the whisky found its way in Louisville, Covington and Cincinnati.

One contention of the government, represented by W. V. Gregory, United States district attorney, his assistant, S. M. Russell, and Elwood Hamilton, internal revenue collector for Kentucky, was that the collector's office was defrauded of \$102,599.28 revenue tax, by failure of the defendants to pay \$6.40 on each gallon as tax for beverage purposes, instead of \$2.20 a gallon for "medicinal purposes," which they did pay. According to the government's figures, when it took charge of the Wathen warehouse, 4,752 cases of whisky had been sold from the 8,159 alleged to have been transferred by Wathen and Knebelkamp leaving 3,408 cases on hand. The whisky sold at \$120 a case, it was claimed.

In moving the court for a dismissal in the case of Wathen, counsel for the defense was not in harmony on one of the statements made to support the motion. Judge Fulton, of Bardstown, associated with J. P. Edwards, for the defense, asked dismissal on the ground "that no evidence had been introduced connecting Wathen with any of the sales."

"There is evidence that the R. E. Wathen Company made sales," Fulton told the court, but was interrupted by Mr. Edwards with "No, there isn't." "Well the Wathen Company sold it, or Knebelkamp, but not Wathen," continued Judge Fulton.

The defense of the accused to the charge of defrauding the government of tax was revealed by the contention of Judge Fulton that since the establishment of war time prohibition it has been illegal for whisky owners to pay any tax for withdrawing whisky except that for medicinal purposes.

"This tax was paid," he said, "and it was all we were allowed to pay. Mr. Hamilton has doubtless had the beverage shaken in his face, but could not receive it legally. We maintain that there was no intent to defraud the government of a penny."

"Do you hold that war time prohibition repealed the right of the collector to collect government taxes?" asked Mr. Hamil-

CONFERENCE TO TALK BIG BOND ISSUE

Governor Wants Discussion By Prominent Men From All Over the State

(By Associated Press)

Frankfort, Ky., Jan. 28—Gov. Morrow today announced he would at an early date call a conference of representative persons from each congressional district to canvass the proposed state bond issue of \$75,000,000, or possibly \$100,000,000. The conference will be held in Louisville and composed of about 15 prominent persons, democrats and republicans, alike.

URGES BIG LOAN FOR STARVING NATIONS

(By Associated Press)

Washington, Jan. 28—President Wilson has asked Secretary Glass again to appeal to Congress to loan \$150,000,000 to Poland, Austria and Armenia to relieve their desperate food situation. The President wrote "it is unthinkable the United States should withhold credit to these striken people making available to them a small portion of our food surplus."

MINERS TELL OF VAST PROFITS OUT OF COAL

(By Associated Press)

Washington, Jan. 28—The miners' representatives completed presentation of the wage and coal mining cost statistics to the President's commission to settle the coal strike today. Regardless of all increases the miners' statistician asserted, the miners were receiving fewer cents out of every dollar paid to the operators than they got in 1913 and 1914.

The miners' statisticians' figures showed that the Pittsburgh Coal Company made a net profit of \$3,000,000 in 1914 and 1915, and \$21,000,000 in 1917 and 1918. The net profit in 1917, he said, was \$690 for each employee. Other figures also purported to show the Lehigh Valley Coal Company made \$500,000 in 1914 and nearly \$4,000,000 in 1918 net profits. Three hundred miners, he said, in 1917 made 15 per cent on their capital stock, 200 made 40 per cent. A hundred and five made 100 per cent and eight over 1,000 per cent.

Ferdie Schupp In Bad

(By Associated Press)

Louisville, Jan. 28—It was announced today that Ferdinand Schupp, nationally known baseball pitcher, now with the St. Louis Cardinals, formerly with the New York Giants, has been indicted here on a charge of child desertion. It is a felony in Kentucky.

Gambling Probe On

(By Associated Press)

Louisville, Jan. 28—City and county officials were called on today to tell the grand jury what they know about gambling in Louisville. Five policemen and deputy sheriffs were summoned.

Flu Gains In New York

(By Associated Press)

New York, Jan. 28—Deaths from influenza and pneumonia increased 16 over yesterday. Nineteen hundred new cases of influenza and 266 cases of pneumonia are reported.

A. E. F. Historian Dead

(By Associated Press)

Cambridge, Mass., Jan. 28—Prof. Robert Johnston, chief historian of the American Expeditionary Forces, died at his home here today after an illness aggravated by two years in France.

No Change In Situation

(By Associated Press)

Washington, Jan. 28—There is practically no change in the influenza situation over the country. The new cases show a slow and gradual increase, reports to the Public Health.

ton.

"I maintain that the whisky tax was suspended for the duration of the war," was the reply.

NO FREE TEXT BOOKS FOR POOR CHILDREN

House Kills Bill and, Anti-Hand-Book Bill—Counties Must Advertise Financial Condition

Frankfort, Ky., Jan. 28—Rallying behind Representative Harry Meyers, of Covington, a democratic member of the House Rule Committee, the republican majority in the House, by a vote of 41 to 39, killed the anti-hand-book bill of Representative John T. Murphy, of Covington. This bill provided not more than 12 month jail sentence for taking bets or races away from a racetrack.

Murphy's luck broke better later on and he had the honor of passing the first bill in the House permitting circuit judges to sign transcripts and enter other orders for appeals of cases, the trials of which were presided over by their predecessors.

The Board of Charities and Corrections bill, and bills requiring state license for operating cloak and hat checkrooms in hotels and restaurants, and for foreign laundry agencies, providing for commission governments in fifth and sixth-class towns and for oiling their streets, were given their first readings.

The anti-hand-book bill, a bill to furnish free text books to indigent children and a bill to reduce the Tax Commission's appropriation from \$50,000 to \$25,000 were refused a reading and killed.

The House committee on Kentucky Statutes made an unfavorable report on the Bright bill which passed the Senate, making it optional with a Fiscal Court whether the sheriff's settlement should be published in full or as synopsis.

The bill was opposed before the committee by B. B. Cozine and M. O'Sullivan, of Shellyville; W. V. Richardson and J. C. Alcock, of Danville; H. V. Bell of Lawrenceburg; T. W. Adams, of Ashland and D. M. Hutton, of Harrodsburg, members of the Kentucky Press Association. The newspapermen said they were not actuated by a desire for the advertising, because rates have gone above the statutory rate for such publications, but their experience has demonstrated a full statement of where county revenue come from and goes. They argued the a synopsis or recapitulation lumping the amounts spent in various funds would be worthless for information throwing light on the management of public funds.

Declaring that no party or partisan can compel him to break his campaign pledge to vote to abolish useless offices Senator Brig H. Harris, of Ashland, Republican, voted today to adopt a resolution requesting Gov. Edwin Morrow to provide the list of 314 useless offices which he is reported to have said during his campaign he would abolish if elected. Senator Harris made this statement after Senator Hiriam M. Brock, Robert Antle and White L. Moss, all Republicans had prevailed on Harris to change his vote. Senator P. Hogue, of McCrory, Republican, asserted that whether or not Governor Morrow had made this statement, every other Republican speaker had. He voted not to table the resolution, but later changed his vote on request of Senators Antle, Moss and Brock.

Senator Burton suggested that Governor Morrow ought not to be held to a strict compliance with his campaign pledges. He caused laughter when he remarked that he himself had made campaign pledges which he could not carry out.

The Suffrage and Elections Committee of the Senate approved the bill of Senator Metzger to pay election offices \$5 a day and extend the time of voting to 6 o'clock p.m.

Representative Murphy led a losing fight today when the House rejected, 51 to 38, his resolution directing the State Auditor to refund to saloon keepers the unearned portion of their license for 1919.

"This is not a temperance question but an economic question," said Representative Waggoner, who favored adoption of the resolution.

While he believed that saloon men should have a square deal, Representative Neel said that he was of the opinion that 95 per cent of the saloon keepers had laid in large supplies of whisky before July 1 and "since that date had made more money than they ever had made in a five-year period."

Two bills killed in the House by unfavorable reports are: To fix the salary of the Secretary of State Tax Commission at \$2,400, allowing traveling expenses of commission and em-

Those "Useless Officers"

The Lexington Leader complains that the resolution passed by the state senate calling on Gov. Morrow for the names and titles of the "314 useless officers" which he talked so much about during the campaign and promised to abolish, is a "move to embarrass the governor." Just how, we fail to see. Gov. Morrow promised on every stump in the state to use his copper toed boots on "useless office holders" when he was running for office. The legislature is the only power that can abolish the "useless offices" and if the governor wants them abolished, he should tell the legislature just what they are. The governor didn't hesitate to "embarrass" the previous democratic state administrations that he charged with creating these same "314 useless offices." It's altogether whose ox is gored. The Lexington Leader is a great newspaper in many ways, but it's so partisan that it can see no good in anything a democrat does.

GOING AFTER "WHITE CANNIBALS" WITH GAS

(By Associated Press)

New York, Jan. 28—Mustard gas and machine guns are to be used by Captain Harry de Windt, an English explorer, against the poisoned arrows of a tribe described as "white cannibals" on Tiburon Island, on the Pacific coast, he announced here today. Captain de Windt said he would leave New York in a few days to lead an expedition of six civilians and three score Mexican soldiers to the island. Tiburon is believed to have rich deposits of pitchblende from which radium is made.

The island is about 40 miles from Guaymas, Mexico, which, in turn, is only about 48 hours by rail from Coronado, Beach, Cal. The inhabitants are said to be descendants of Dutch, Swedish and German prisoners who escaped from Mexican prisons several centuries ago. Of sixteen persons known to have visited the island in the past few years, in parties of two and three, only nine are said to have returned alive, the others falling victims to the flaxen-haired, blue-eyed, "white Indians" as the Mexican peons call them.

"Four miles from the Mexican coast," said Mr. de Windt, "Tiburon is easily accessible. Yaqui Indians, who live on the mainland, call Tiburon the Island of Death for the reason that any person who lands on it is shot by poisoned darts and then eaten by the natives. The cannibals, in addition to bows and arrows, use ancient blunderbuss. They are supposed to number from 500 to 2,000 persons.

"Besides myself, the expedition I will lead will consist of Mackenzie Grieve, the companion of Harry Hawker when he fell during his attempted transatlantic flight; an expert radium mining engineer; Anton Gibson, nephew of President Carranza, of Mexico, in whose name the concession permitting the exploration of the island was issued; a man servant and sixty Mexican soldiers, assigned to the party by the Mexican government. I imagine the searchings on the island will consume about three or four months."

Modern business can't wait for the easily-exhausted, nervous, weak-bodied man or woman. Every executive is on the constant lookout for enthusiastic, vigorous, red-blooded individuals, for he knows that with a strong body and keen mind, such employees can easily stand the strain of heavy responsibilities, quickly master their work and develop into important positions.

After all, being "live," energetic, and full-blooded is just a matter of whether or not a man or woman believes a healthy physical condition worth while, for unless you are afflicted with some deep-seated ailment, the intelligent use of Gude's Pepto-Mangan is all that is usually necessary.

Gude's Pepto-Mangan soon produces marked beneficial results. The tired, worn-out rundown feeling disappears. And in its stead a vigorous wholesomeness and happiness proves that the blood has been supplied with the sorely needed richness to supply the entire system with renewed strength.

When you buy Pepto-Mangan at your druggist's, be sure the name "Gude's" is on the package. You can get it in either liquid or tablet form. If the name "Gude's" is not on the package it is not Pepto-Mangan. Adv.

IN AUTO CIRCLES

It has always seemed to me that there is a good deal of sound philosophy in Benjamin Franklin's statement that we should beware of croakers. This advice is as sound today as it was a hundred years ago. All industry has been confronted with menacing conditions during the months, and years just past, but I am optimistic enough to believe that every major development in our international growth, in our civic reforms and in our economic re-adjustments will lead us to bigger and better things for the future. Every one of us should be an optimist, there is no room for pessimism.

By referring to one of my charts, I notice that in 1905 there were 150,000 automobiles in the country; fifteen years later we have passed the seven million mark. Now I hear much about the "saturation point" and that other indefinite period when we shall have "diminishing returns". Automobiles come in the "consumption" class of commodities; i. e., they are used, worn out—and replaced as an essential part of life just as clothing is. I forecast that we shall be able to absorb not only the present automobile production but we shall even sustain the greater growth which ambitious manufacturers are meditating.

Hence it is a problem of production and every citizen, from the management to the worker at the bench, should do his share toward keeping an uninterrupted flow of raw materials and finished goods going through the mills, warehouses and stores of this country and every man has a right to share in the fruits thereof. In no other line of industry are the relations between capital and labor on a friendlier or sounder footing than in the automotive field, hence there should be no cause for apprehension.

So far as passenger vehicles are concerned we are now at the crest of a buying market. Production does not equal demand and personally I expect this condition to exist for some time to come. I recall being told at one of the New York shows way back in 1907 that the then annual production of 60,000 cars marked the peak point in automobile manufacture and that the number of cars to be made annually would lessen rather than increase. Just as that prophet of gloom was suffering from brain-storm so will I also classify those who today are refusing to advance with the times. The proposed car production for 1920 is 3,600,000 cars. An analysis of the market, at home and abroad, shows an ability to absorb even greater production, hence the possibility of a shortage of cars is imminent.

Rural Districts Disappearing

The average reader may say, "Well, this growth of the automobile industry is all very nice, but where does it affect me?" Anything re-

NEGLECTING THAT COLD OR COUGH?

Why, when Dr. King's New Discovery so promptly checks it

IT'S natural you don't want to be careless and let that old cold or cough drag on or that new attack develop seriously. Not when you can get such a proved successful remedy as Dr. King's New Discovery.

Cold, cough, grippe, croup does not affect this standard reliever very long. Its quality is as high today as it always has been—and it's been growing steadily in popularity for more than fifty years. 60c. and \$1.20 a bottle at all drugists. Give it a trial.

Constipated? Here's Relief

Not that often harmful, always violent and temporary relief, that comes from harsh purgatives, but the comfortable, gratifying, corrective treatment of stubborn bowels so pronounced in Dr. King's New Life Pills.

Topic in action, they promote free bile flow, stir up the lazy, thoroughly but gently cleanse the system of waste matter and fermenting foods, and give you keen zest for hard work and healthful recreation. All drugists—25c.

lating to the third largest industry in the country affects everyone. Thus within the past ten years our cities have undergone a wonderful transformation. A decade ago Chicago boasted that it was forty miles from one side of the city to the other. We marveled. But today cities having a population of only two or three hundred thousand spread themselves over as large an area. In some of our states the country is no longer rural, it is interurban. Think what this means for health and culture; again think what it means for health and culture; again think what it means for real estate values.

A certain authority estimates that for every million dollar's worth of automobiles produced there is produced another million dollar's worth of property value. Now consider how important it is that we should have a net work of highways in every community for freight and passenger traffic. Someone has said that highways are the measure of civilization. I believe this implicitly. So in the final summary my conclusion is that the number of cars produced during the years to come does not rest with a group of manufacturers in the central west, but lies rather in the hands of the general public. Authorize the building of suitable highways and the manufacturers will motorize them, greatly to the advantage of the community and the individual.

Good, better and best, is the way the saying runs. When you speak of coffee, it is good, better and Roastwood. Buy your Roastwood today from D. B. McKinney & Co. 1915

Public Auction of Fine Clark County Land

As administrators under the will of the late W. D. Thompson, we will offer for sale at

Public Auction on the Premises

ON

Friday, January 30, 1920

AT 10 O'CLOCK A. M.

the home farm of the late W. D. Thompson, containing 543 72-100 acres. This farm is in Clark county, and is located 6 miles from Mt. Sterling, about 10 miles from Winchester, and 3 miles from Thompson's Station on the Chesapeake and Ohio Railroad. It lies on both sides of the Wade's Mill and Sewell's Shop turnpike. This land has been subdivided into five different tracts, each of said tracts having a large frontage on the Wade's Mill and Sewell's Shop turnpike and each tract makes a fine farm in itself.

TRACT NO. 1—Contains 106 42-1000 acres. This tract lies well, has a large frontage on the pike, affords a splendid building site, is mostly in blue grass, and has on it a large amount of fine tobacco and hemp land, and is well watered.

TRACT NO. 2—Contains 176 15-100 acres. It has a large pike frontage. Improvements consist of a nine room, two-story frame residence with two halls, large front and back porch, good cistern, smoke house, ice house, two buggy houses, stock barn, good orchard and other improvements. A portion of this land is in grass, and the balance is in a fine state of cultivation. This tract, with its improvements, makes a most desirable home.

TRACT NO. 3—Contains 86 42-100 acres. It has a large pike frontage, affords a splendid building site. A portion of this land is in blue grass.

TRACT NO. 4—Contains 94 537-1000 acres. Has a large pike frontage, lies well, and affords a splendid building site. A portion of this land is in blue grass, and the balance is in a high state of cultivation.

TRACT NO. 5—Contains 80 192-1000 acres. It has a large pike frontage, and has on it a brick residence containing four rooms and kitchen, a stock barn and other outbuildings. It is practically all in blue grass and is watered by never-failing springs.

This land has been sub-divided with great care, so as to make each tract a very desirable farm.

For further information prospective purchasers are invited to call on the undersigned.

PERSONAL AND SOCIAL

Clef Club

Miss Marie Langford, secretary of the Clef Club was at her home in High street Monday afternoon the program. Miss Elizabeth Sherer, Georgia Smith, Elizabeth Renick and Marion Giunchigliani gave the piano numbers and Little Gladys, Virginia and Hannah Dean of the piano club played a duet. A motion was made and carried that each member on the program, in case of absence pay a fine or furnish a substitute. This club is one of the most active, energetic and enthusiastic organizations among the seven of which Richmond boasts. The February meeting will be with Miss Georgia Smith.

Entertained at Dinner

Miss Irene Baker entertained with an informal dinner Sunday at her home on the Lancaster pike. Her guests included: Miss Beulah Tipton, Miss Stella Francis McKinney, Miss Lucile Mae Baker, and Meyers, Doc

Cotton, James R. McKinney, John D. Baker and Walter Lawson.

Duncan—Howard

Miss Sallie Duncan and Mr. Luther Howard, both of this county were married at the office of the County Judge, in Jessamine county last week.

Mrs. Dan Brock was a recent visitor of friends in Berea.

Mr. and Mrs. George Rogers spent the weekend with friends in Paint Lick.

Mrs. Nannie Epperson, of Ford, spent the week-end with Miss Anna Edwards.

Mrs. Abe Burton, of Garrard, spent the weekend with relatives in Madison county.

Mr. and Mrs. Edgar Rogers were dinner guests of Mr. and Mrs. Ernest Butner Sunday.

Mrs. W. E. Dickerson and son, have returned from a visit to Mrs. George Ray at Buckeye.

Miss Cora Hurst has returned to her home in Paint Lick, after a visit to Richmond friends.

Spring Is Not Here

But we are glad to announce that we are receiving some very early shipments of Spring slippers and Oxfords for the early buyer. There will be no disadvantage this season in buying your shoes early, because our early purchases are more reasonably bought than those that were not so fortunate to buy them early.

We have also received some beautiful brown and black high shoes for the particular buyers that want a high shoe to wear the year round, or for early Spring.

Rice and Arnold

The One Price House

THE BEST INCUBATOR IS ALWAYS CHEAPEST

Why Risk Your High-Priced Eggs In A Flimsy, "Cold-Cornered" Incubator?

Suppose you bought a flimsy, "cold-cornered" incubator this year! And five eggs in each corner—twenty eggs out of every hundred—failed to hatch! Or the chicks died in the shell! Or the deadly 10-day mortality period snuffed out their lives! Would an incubator like this cost you less?

We tell you it would not! It would be the most expensive—the costliest incubator you could buy. That's why we say

Our Simplicity Is The Cheapest And Best Incubator You Can Buy!

For here—at last—is the perfect incubator. Its wonderful "no-cold-corners" design will save your high-priced hatching eggs! Will save your valuable chicks! It will bring you bigger hatcheries—of better chicks! Full-feathered, full-blooded chicks that will live! And grow into profit fast! It is the one and only "no-cold-cornered" incubator! It is replacing cumbersome, old-style incubators by the thousands.

FORTUNES IN POULTRY FOR YOU THIS YEAR

Uncle Sam says: "Raise More Poultry This Year!" He urges you to join the Billion Dollar Poultry Industry! I'll tell you why! Poultry is the quickest of meats to produce! You can turn an egg into a two-pound "frier" in ninety days time! Think what this means to you! Think of the prices now paid for poultry and eggs! Why! It means fortunes in poultry this year! And the more you raise, the bigger your share of these profits will be! The 23,000,000 people already in the business are fortunate indeed! Its the best time—the opportune time for others to start! And the Simplicity—the wonderful 20th Century type of hatcher—is the incubator for you to buy! Our advice is

"Start A Money-Making Business For Yourself This Year"

DOUGLAS and SIMMONS

Judge N. B. Turpin was called to Paris Tuesday by the death of his niece, Mrs. Joe Hilton.

Mr. Oakley Baber and Miss Maggie Baber have returned from a visit to relatives in Clark county.

Miss Bettie McCann Perry is at home from Hamilton College to spend the term end with her parents.

Mr. and Mrs. W. P. Williams, of Irvine, were here Monday on route to a visit to friends in Frankfort.

Mrs. J. B. Harris and Mrs. Paul Griggs have returned from a visit to Miss Lydia Jane Harris at Berea.

Mr. and Mrs. Miley Brasley, of Garrard county, were guests of friends here Thursday and Friday.

Misses Laura and Camille Blanton will leave next week to enter the second term at Georgetown Baptist College.

Mrs. Harvey Chenault, who left Tuesday for Fort Myers, Florida, stopped in Atlanta for a few days visit to her brother, Mr. E. B. Hume and Mrs. Hume.

Dr. Wilgus Bach and Mrs. Bach of Jackson were here last week with the latter's parents, Mr. and Mrs. John Duncan en route to Tampa, Fla., to spend the winter.

Mrs. James W. Smith left today for a visit to her daughter Mrs. Julian Van Winkle in Louisville.

Mrs. Walker Hise and daughter, Miss Virginia, have returned from a visit to Mrs. H. C. Butler at L. & E. Junction.

Miss Jetie May Herrington, of Atlanta, who is so pleasantly remembered here, having spent the winter with her brother, Mr. L. B. Herrington and family a few years ago has arrived in Louisville for a several months stay and will probably visit Richmond friends before returning home.

BROOKS TOWN

Mr. and Mrs. Charley Noland, of Blue Mound, Ill., who have been visiting relatives in Kentucky have returned to their home.

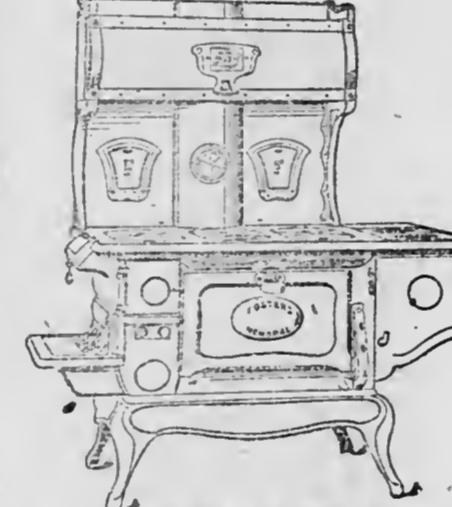

Mr. J. A. Turpin spent last week with his daughter, Mrs. B. J. Edwards of Corbin.

Mr. Robert Pigg is on the sick list.

Miss Mary Black Johnson spent last Saturday night with Miss May Delta Reid.

Miss Amanda Parke is visiting Miss May Delta Reid.

Mr. and Mrs. Eugene Davis, of Red House, spent last Sunday with Mrs.

OF INTEREST TO WOMEN

This is a Short Letter, but it Brings a Message of Importance to every Woman.

Woodford, Vt.—"I took Lydia E. Pinkham's Vegetable Compound and Liver Pills before my child was born and it did wonderful work for me. My baby weighed eight-and-one-half pounds when born and I did not suffer many pains. You can publish this letter if you wish for I would not be without your medicine before child birth."

HEARD ABOUT TOWN

In Clark county, Miss Lena Brattan sold her farm containing 283 acres located near Wades Mill to W. C. Gaines and Thomas Reeves at \$250.00 per acre.

W. H. Hitt sold his 157-acre farm in Woodford county to S. A. Ferris at \$260 per acre. White Brothers bought the T. A. Bramell farm in Franklin county.

Many more fans will regret to learn of the death of Rev. Cyrus Townsend Brady. He was author of most of the thrilling serials that have been appearing at the Richmond theatres lately. He was an Episcopal clergyman, graduate of the Naval Academy and an army chaplain in the Spanish war. Dr. Brady had written scores of books dealing with adventures and battles on land and sea, most of the novels with an historical foundation.

Petitions are now being circulated, as required by law, calling upon County Judge Stapp, to call an election at the earliest possible moment for the purpose of voting a bond issue in the sum of \$192,000 which will pay \$18,000 per mile for the 21 miles of the proposed road that is to run thru Garrard county from King Mill to Paint Lick. It was decided to build the road of a rock asphalt and make it the best or as good as the best in the state.

PRESBYTERIAN DRIVE

Chattanooga, Tenn., Jan. 28—Definite dates for the every-member canvass of Presbyterian churches all over the south, in the \$4,000,000 progressive program of that denomination will be set at a meeting of the campaign committee to be held in Chattanooga January 29. The southern Presbyterian church has set the above named amount as its goal for one year.

Headquarters of the entire campaign are in this city, with Dr. William Fred Galbraith as executive secretary, and the Rev. S. Waters McGill as campaign manager. In addition to this, syndical headquarters have been opened in seventeen states, from Texas to Washington.

AGED CITIZEN BIDS

After a protracted illness of 63 days, Fenton Jones aged 73 years, died at the home of his daughter Wednesday night from complication of diseases. Deceased had been a lifetime resident of Madison county, and loved and respected by who knew him. He is six daughters and two sons most of whom were with him when the end came, their devotion and ministrations to their aged parent, untiring to the end. Remains were interred in burial ground at Red House, services at the grave by the pastor of Christian church. Much sympathy is felt for the bereaved family.

Mr. J. A. Turpin has returned from a visit to his daughter, Mrs. B. J. Edwards in Corbin.

Miss Georgia Moss was with the home folks in Stanford for a weekend visit.

Signifies Intense Imagination.
In numerous types of handwriting the manner of throwing the looped 't's, 's' and other long letters to excess above the line become the most striking feature, one which catches the eye immediately. Whenever this formation appears it symbolizes the existence of a startling, vivid, intense imagination, which gives the writer a mental trend which will overtake other qualities and produce the effect of high nervous tension and a lack of poise.

There are two kinds of tires, the kind that can be punctured and the kind that can't. One of them gives you 5,000 to 10,000 more miles than you ever had before. LALLEY LIGHT and POWER

It is Costing You Money Not to Have a Lalley

It is an actual fact that any farmer is losing money by not having Lalley Electric Light and Power.

You lose money in the comfort and convenience which the Lalley would give you and your family.

You lose money in the time the Lalley would save in the farm work.

You lose money in the labor the Lalley would actually save.

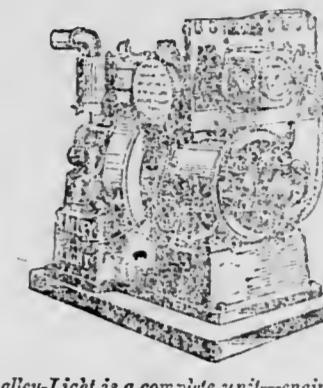

All these things are worth money and if you do not economize in them, you are the loser.

The Lalley is an economy. It DOES pay for itself by what it saves.

Thousands of Lalley-Light owners know these things are true, and they have said so over and over again.

There can be no doubt now, after ten years of use, that the Lalley plant is right.

Neither can there be any doubt that it does its work with extraordinary efficiency and extraordinary economy.

Free Yourself From The Pangs of Rheumatism

The Right Treatment Will Break Your Shackles.

You who are afflicted with Rheumatism know from experience just how excruciating the pangs of the disease are. You know also, if you have had rheumatism for any length of time that there is no real relief to be expected from the use of liniments and lotions.

Rheumatism is a stubborn disease, and its pangs and pains cannot be wiped out as if by magic. A disease that is so full of torture and renders so many people absolutely helpless, is a deep-seated one; it is not on the surface, hence it cannot be reached by external, surface remedies.

Liniments and ointments applied to the surface may in some cases deaden the pain for the time being, but until you attack the disease at its foundation, you are making no progress toward a cure. Many forms of Rheumatism are caused by millions of tiny germs that infest the blood, and until the blood is absolutely freed of these germs, there is no real relief in sight.

In fact the longer you delay treating the disease through the

blood, the further you are getting from ridding yourself from the disease. And because so many people treat the pain, and not the disease itself, is one reason why Rheumatism increases in severity year by year.

The most satisfactory remedy for Rheumatism is S. S. S., because it is one of the most thorough blood purifiers known to medical science. This fine old remedy cleanses the blood of all impurities, and is a sure antidote to the germs of Rheumatism. Being purely vegetable, without a particle of mineral or chemical in its composition, it works by eliminating and forcing out of the blood all impurities, acting as a tonic to the entire system at the same time.

It has been used for more than fifty years, and scores of sufferers from Rheumatism give it unstinted praise.

S. S. S. is sold by druggists everywhere, and any of them will tell you that it is a thoroughly honest and reliable old remedy. You are invited to write our medical department for full information and advice about the treatment of your own case, for which no charge is made. Address Chief Medical Adviser 12 Swift Laboratory, Atlanta, Ga.

TELLS OF ENGINEERS' WORK IN GERMANY

Brother Officer Writes From Coblenz To Richmond's City Engineer, Col. Crecelius

Col. C. F. Crecelius, city engineer for Richmond, has just received an interesting letter from a brother officer with whom he saw service during the war, that tells of the work that the American army of occupation in Germany is doing. The writer is stationed at Coblenz, Germany, and writes interestingly of conditions to Col. Crecelius. He says:

Audernach am Rhein.

My Dear Colonel:

It took your letter just a month to get here; and in order to keep in better touch with you, I am going to drop you a few lines now. It was a you a few lines right now. It was a real pleasure to hear from you; and I'm particularly glad that you agree with my choice. At the time, I had no misgivings at all, and now that I've been in the expedition for two months, I am forced to congratulate myself. My only regret is that the engineer company has gotten to be about the most useful, best known and absolutely indispensable unit in the brigade. We do everything from drill to painting signs and making clubs for the M. P.'s. Now have a flourishing company of 290 men, who have been picked from 350 that we had two weeks ago; and the only danger is we are getting too high-class an outfit. Have one buck private who was a battalion commander of Field Artillery in France. Croix de Guerre, wound stripes and all. Such as these we have farmed out on S. D., construction work—which I am handling for Colonel Fox.

We find German labor so plentiful, efficient and cheap that we seldom ever use the men of the company on fatigue work. Keep them drilling—to make good soldiers; and I have two excellent Master Engineers, two 1st Sergts., a couple of corporals—who supervise a gang of twelve German carpenters, painters and craftsmen, and in this way keep the company intact besides doing more work than a hundred soldiers could. We get eight hours each day out of these fellows, and pay them from 20 to 25 marks per day. About 40 to 45c inasmuch as the American dollar now buys 47 marks! Think of that for labor. Do you blame us; for a lot of people I know are not on the trip with us. You would love this detail and would enjoy the work immensely.

The best way I can describe things is to just admit that we are sitting right on top of the world. It's really quite a dizzy height too, in contrast with the trying conditions you all are facing back in the states. Our life is filled with interest, peace and enthusiasm, with worlds of joy and pleasure, and a large amount of satisfaction in accomplishing the tasks assigned to us. I've already told you of the organization of the brigade in previous letters I believe.

Making soldiers of our men? I know this spotlight on the labor item, in view of your present experience will seem preposterous. But over here we find everything ridiculously cheap, a good meal for 8 marks 16c, and a drinking man can get a quart of champagne for 65c. In fact the purchasing value of American money is our main handicap—for a buck private has money all the month through, so that we have pretty strict rules again hard liquor—pretty strict rules against hard liquor, other than wine or beer.

The engineer organization of the brigade consists of the brigade engineer, the Engineer Dump, and company of 290 men. The dump carries the provisional brigade train, one-half

Goodyear Leadership— and Tires for Small Cars

Enormous resources and scrupulous care have produced in Goodyear Tires for small cars a high relative value not exceeded even in the famous Goodyear Cords on the world's highest-priced automobiles.

In addition to its larger sizes, Goodyear manufactures an average of 20,000 small car tires a day in the world's largest tire factory devoted solely to the 30x3, 30x3½, and 31x4-inch sizes.

Last year more small cars using these sizes were factory-equipped with Goodyear Tires than with any other kind.

Their extreme worth is available for your Ford, Chevrolet, Dort, Maxwell, or other small car, at the nearest Goodyear Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure \$2.00

30x3½ Goodyear Single-Cure \$1.75

Goodyear Heavy Tourist Tubes are built to protect casings. Why endanger a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in waterproof bag \$3.00

GOODYEAR

The divisional equipment; and for its

with 3 M. E.'s, and an excellent staff of 110 N. C. O.'s, we get our work over with, and manage to get in nice week-end trips to some of the garden spots that are all around us in this beautiful Rheinland. Cologne and Weisbaden are on each side of us, a two-hour run by train, and Coblenz itself is a prosperous town of some 100,000. So we do get in our play, and feel that were making good use of our time. Everybody is in love with conditions as they are, and for the first time in two years, we can live luxuriously on our pay, and save a bit besides.

With very best regards to both

Mrs. Crecelius and your self, I am

As ever yours,

JOHN WOOD

Sylvester Tingle, 19, missed his

footing on the L. & N. bridge at

Ravenna and fell 30 feet, fracturing

his skull. He was rushed to a Lexington hospital.

Taress.

It would be thought a hard government that should tax its people one-tenth part of their time, to be employed in its service. But idleness taxes many of us much more, if we reckon all that is spent in absolute sloth, or in doing nothing; with that which is spent in idle employments or amusements that amount to nothing. Sloth, like rust, consumes faster than labor wears; while the used key is always bright, as Poor Richard says—Franklin.

Laurel, Whitley and Knox county are combining in building a \$150,000 hospital at Corbin, constructing work to be commenced in the spring.

There's a satisfied user near you

IN considering the installation of a farm electric plant, more must be taken into account than mere price. There are other things of greater importance.

You want to be sure you receive long years of dependable service at low operating and upkeep cost, and be sure the plant you install will do the things which are claimed.

Delco-Light is not an experiment. It has gone through the refining influence of years of actual farm usage. Today there are more than 85,000 plants in daily use. Nearly everywhere you will find Delco-Light plants, providing complete and dependable electric service. There is a satisfied Delco-Light user near you.

Think what this means to you! It means that you need not depend entirely upon your own judgment when buying an electric light and power plant. You can talk to an actual user and learn from him whether Delco-Light will do for you the things claimed.

Perhaps your neighbor has Delco-Light? If not, write for name of nearest user and catalog.

THE RICHMOND DAILY REGISTER

Both one year, by mail, for only \$8.00

This offer applies to renewals as well as new subscriptions but only to people living in Kentucky, Tennessee and Indiana. New subscriptions may, if desired, start at a later date, and renewals will date from expiration of present ones.

If you prefer an evening newspaper, you may substitute The Louisville Times for the Courier-Journal.

Send or bring your orders to the office of

THE RICHMOND DAILY REGISTER

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They tonify the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.

CENSUS FIGURES COME FROM WASHINGTON

Enumeration About Completed in Madison—Prominent Farmer Sends Clipping on Subject

Madison county, census takers have completed their work, according to District Supervisor R. B. Terrell. Nothing will be known of the population of Richmond, Berea, or any other towns or of the county as a whole until figures are given out by the Census Bureau at Washington.

It has been announced from Washington that, while it had been hoped to complete the enumeration work in the fourteenth decennial census in 15 days, Director Sam L. Rogers, of the Census Bureau, said the time would be extended and that the count of the population of the country would be completed regardless of the time necessary. His announcement was made as the result for extension of time received from Chambers of Commerce and other organizations in a number of cities which apparently were under the impression that 15 days was the limit fixed by law for the enumeration and that any work not completed in that time would remain unfinished.

Director Rogers said the enumeration had not yet been finished in any of the larger cities, but that some returns had been received from a number of them. In connection with the taking of the census and the questions asked by the enumerators, a prominent citizen of the county and good friend of the Daily Register sends in a clipping of a letter to the Courier-Journal regarding the census in Fayette county, and he says in connection with it:

"I have never asked you to publish anything but I'm sending you a clipping which I wish you would publish in the Daily Register as I think it fits this county."

The clipping reads as follows:

"Quit Ye Like Men"

Over in Lexington we have been taking the census. Each day the local papers gave a story relating the unexpected difficulties which were encountered. On Sunday they "let out" the secret. There was a reason. The general public suspected all along, for there was really no cause for difficulty in obtaining proper and legitimate information which has been done many times before, without any trouble. Now the papers which have vigorously exposed the cause of the census takers, have unwittingly given explanatory evidence.

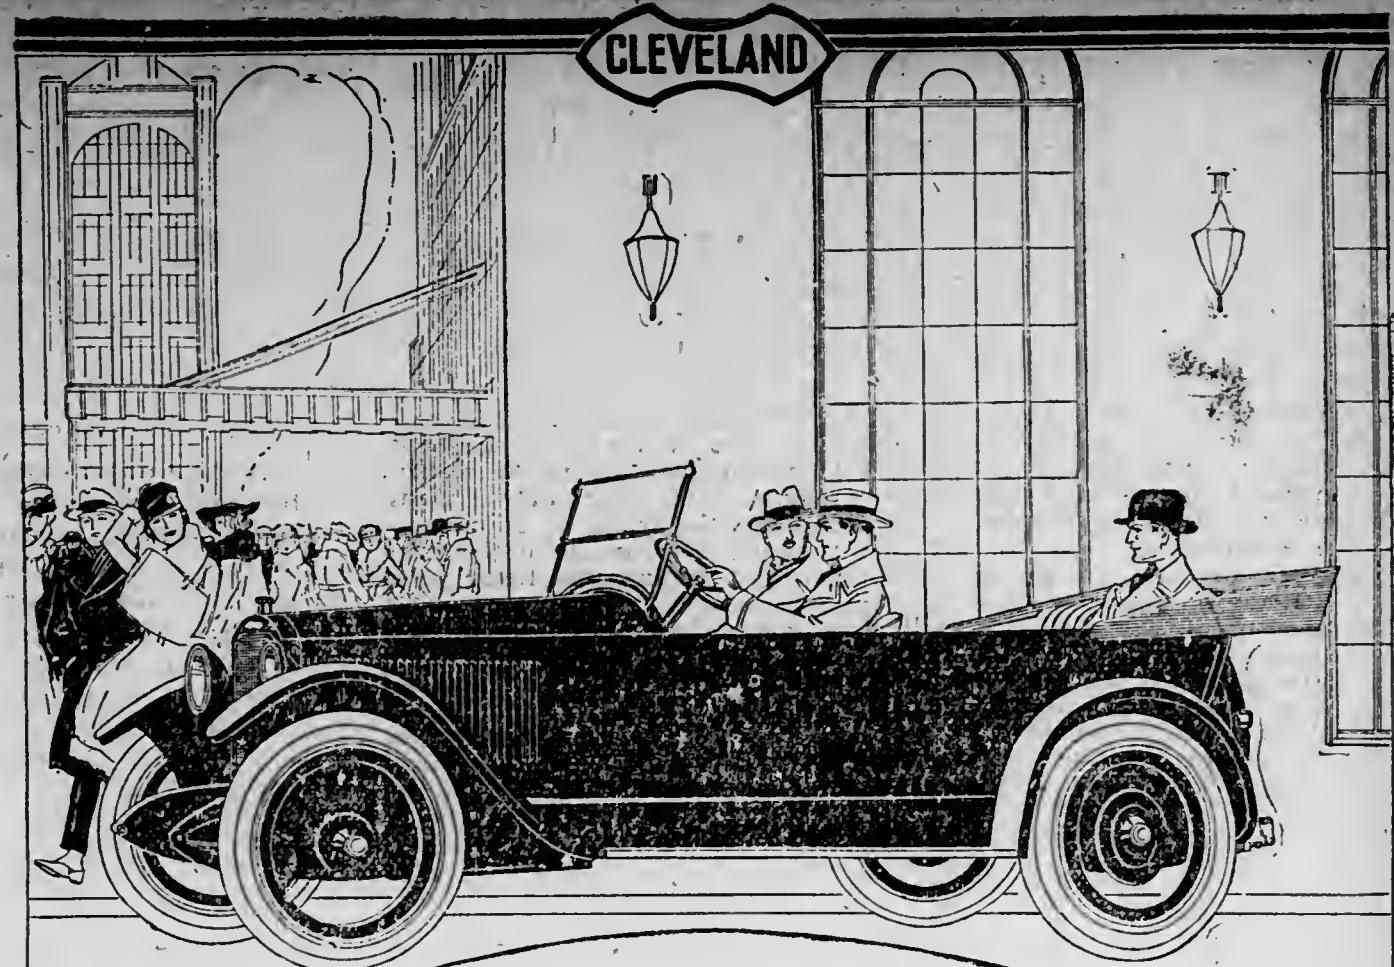

Women have been employed to go from house to house and have been "mercifully treated." Now it is right and proper that women should be given work in any field under heaven where men have gone before. By the chivalry of men we are soon to have full rights of citizenship. It would be well perhaps if some of us, who ponder the sentence, "Quit ye like men."

The census takers of Lexington indulged in inexcusable personalities. They made "copy" not only for private gossip, but for newspaper space writers of the most sacred and private gossip, but for newspaper space writers, of the most sacred and private affairs of households into which they—armed with Government authority—forced themselves. Nothing was too private or too sacred to be flaunted before the public.

Let it be said, in passing, for the benefit of those thoughtless or that the writer of this article is a woman, who has, at all times given full information as to age, nationality, birth, etc., to Red Cross canvassers, census takers, etc., whenever asked to do so. She has not nor perhaps ever will reach a point of sensitiveness in regard to the question.

She also believes that women have rights—chief of which should be to "quit themselves like men!"

There appeared in a Lexington daily a "story" of the census progression. The sanctity of the home of two modest, defenceless old ladies was invaded. Throughout sixty and eighty long years they had kept one beautiful, womanly instinct alive in their hearts—the normal right to beautify their persons. They had curled their hair, and for this sin they were sneered at and derided in the public press, copy being furnished by female census takers. The exact ages of these same gentle little old ladies were given—born at a time when women were not forced to talk of such things—when traditions of a certain culture and refinement still existed. Imagine the mortification and indignation of these defenceless ones when that item appeared in the daily papers, so minutely stated that their neighbors could make no mistake as to identify

The Cleveland Makes Good Because it IS so Good

"The Cleveland is in a class by itself." That's the answer from owners of the new Cleveland Six all over America.

The Cleveland has made good with the public in such a big way, because it is so good.

Men of engineering and manufacturing skill, and of high ideals, devoted three years to the development and perfection of the Cleveland Six before they offered it to the public. Experimentation was worked out in the Cleveland Company's laboratories and shops and in constant tests on the road; not in the hands of owners. So the Cleveland has made good.

We cannot tell you how good the Cleveland Six is.

You must drive it and ride in it to know.

One may easily learn that almost any transaction with a Bank can be quite satisfactorily conducted by means of correspondence.

Our friends are invited to use the mail to command the services of this Bank.

State Bank & Trust Co.

DIRECT DEALING PAYS BEST

When cream is ready to sell, the hard work has been done and you should not permit any outsiders to make an extra profit off your efforts.

You can ship your cream DIRECT to the Tri-State and save from 3 to 5 cents per lb. of butter-fat. It is just as easy to deliver the cream to a railroad station as to a buying station. The Tri-State pays the freight and guarantees your cream against loss in transit.

Mrs. Thos. Daulton, Peebles, O. writes us on Nov. 25, 1919—"I have shipped cream to the Tri-State Butter Co. for three years and have been satisfied. I have sold cream to cream stations in order to return the empty can with me, as I live 9 miles from the railroad and always lost from \$1.50 to \$2.00 on every can of cream sold to agents.

We Pay the Freight and 70cts per Pound for Butter Fat

Swift & Company's 1919 Earnings

How They Affected You

During the twelve months ended November 1, 1919, (its fiscal year), Swift & Company transacted its large volume of business on the smallest margin of profit in its history.

Sales over \$1,200,000,000.00

Net earnings \$13,870,181.34

Our shipments were in excess of 5,500,000,000 lbs.

This means that our earnings were less than 1½ cents on each dollar of sales, or a quarter of a cent on each pound shipped.

Consumer—

The average consumer eats about ½ lb. of meat per day—180 lbs. per year. If he purchased only Swift & Company products he would have contributed only 4½ cents (180 lbs. @ ¼ cent a pound)—a year profit to Swift & Company for its investment and service, less than one cent per week.

Our earnings were so small as to have practically no effect on the family meat bill.

Live Stock Raiser—

Swift & Company handled in 1919 over 16,000,000 head of live stock. You can figure for yourself that our earnings of 1½ cents on each dollar of sales are too small to affect the price you received for your stock.

We paid all it was humanly possible to pay considering what the meat and by-products could be sold for.

Swift & Company, U. S. A.

The Danville Advocate said: a regular run-away meeting of Pure Bred Increasing in Ball Clubs Her good people met in mass enthusiasm for the proposed meeting last Wednesday and had Federal Highway.

The Romance of Banking

It is always interesting to watch a small account grow gradually in volume, registering the progress of its owner.

And if it is inspiring to watch and encourage one individual to steadily mark milestones in his career, the banking business amounts almost to romance when it is remembered that it shares in the progress of hundreds of citizens.

With the increase in our depositors, though, there is no decrease in that personal touch we always maintain.

SATURDAY RALLY DAY FOR THE CHILDREN

Bad Weather Does Not Keep Great Crowds Away From Dr. Morrison's Meetings Each Night

The revival meetings at the Methodist church continue with increasing interest. Yesterday was an unusually busy day. A number of city pastors were out doing personal work. Dr. Morrison spoke to a group of men in Court House yesterday morning. He and Mr. Bierer visited the jail and had prayer with the prisoners. He also preached three times at the church. A successful children's meeting was held in addition to the regular services.

Notwithstanding the rain and sleet, a great audience was present at the church last night and it was necessary to use many chairs to seat the crowd. There is evidently a wide and deep religious interest in the community. It is the purpose of the pastor, Mr. Chandler, to press the meetings with great vigor until the closing services next Sabbath.

There were quite a number of professions of conversion yesterday, and many expressed their purpose to unite with some church.

From the very first, Evangelist Morrison has laid great stress on the necessity of the "New Birth," a consciousness of pardon and acceptance with God. He has made a strong call to the church to enter into a deeper consecration and higher life of devotion to Christ and Christian service.

The meetings have been characterized by a beautiful spirit of union. The various pastors of the city have been almost constantly present, and have been very valuable in their assistance, in prayer and in instructing seekers at the altar.

There are plans on foot to make Saturday a Rally Day for the young people and children with services at 2:30 in the afternoon and at 7:30 in the evening. If you have not heard Mr. Morrison preach and Mr. Bierer sing, do so at once. Meetings close next Sabbath.

WESLEYAN PLAYS NORMAL TONIGHT

Kentucky Wesleyan College of Winchester is sending her basket ball team to Richmond tonight to play the team from the Normal school. Wesleyan has the best team in the state, put in the field and while they are favorites in the game tonight, it is known fact that the local lads fight hard for victory. A good game will be played at 8 o'clock in the Normal gymnasium. A new hardwood floor has just recently been installed which makes the Normal gymnasium one of the best basket ball floors in the state. An admission charge of 25¢ will be made.

ENGLAND GETS HALF OF CANADIAN WHEAT

(By Associated Press) Ottawa, Ont., Jan. 23—Great Britain has received almost one-half of the total Canadian wheat crop available for export, according to an announcement by the Canada Wheat Board. Records up to date show that 33,200,000 bushels were exported to the United Kingdom up to Dec. 1, and several million bushels were shipped last month. The value of the total export is about \$80,000,000.

The United States received about 4,700,000 bushels of Canadian wheat worth nearly \$10,000,000. France, Greece, Italy, Belgium, Gibraltar and Rumania, also received smaller supplies in order named.

Since the embargo on shipments of wheat to the United States was lifted "A fair proportion of the supply is moving across the border," it was announced. Available statistics indicate that the remaining surplus for export is about 40,000,000 bushels.

A check for \$1,689 just forward represents the gift of school children of Mercer county to the Kentucky Children's Home.

Don't Forget

My auction sale Monday, February 2, (County Court Day) at 1 o'clock p. m. in front of the court house. Something for everybody.

Some household and kitchen furniture.

Harness, bridles and a thousand other things.

Don't miss this sale. Something for everybody.

Be there on time at 1 o'clock.

23-38 Bob Walker, Auctioneer

Get the Habit Eat Brer Rabbit

FIGURE out for yourself what eggs beef, ham and bacon are costing.

The thought staggers the woman whose family eats hearty breakfasts.

Present prices make one feel that BRER RABBIT is a friend indeed.

BRER RABBIT syrup is delicious on griddle cakes, fried hominy or just plain bread, and you'll more than notice the saving.

But the best part of the story has been figured out by government experts—

There is more than eight times the heat and energy producing value in BRER RABBIT syrup that there is in an equal purchase of beef—five times that of ham.

Real country made ribbon-cane syrup from the country—this is BRER RABBIT.

Housewives everywhere know that the name "PENICK & FORD" on a food means Always the Best of its Kind, 22 years of quality.

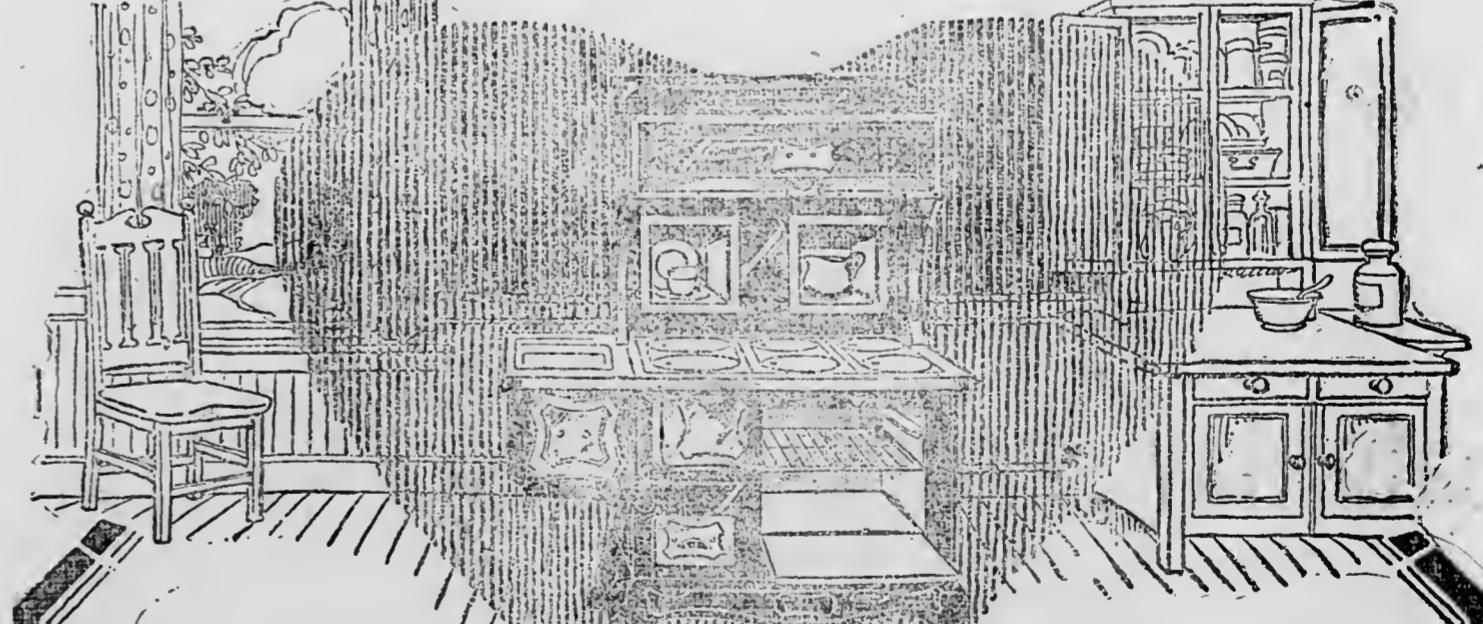

BAPTISTS TO SPEND \$2,000,000 ON SEMINARY

Louisville, Ky. Jan. 28—Erection of Dr. E. Y. Mullins, president and company reports \$2,000,000 is the cost of several auxiliary buildings to the founder.

Southern Theological Seminary cost

William B. Brown, of the Kentucky Motors Corporation, has been on a

touring car to J. P. Tarlton, a Chandler limousine to George E. Collins, and a Chevrolet roadster to Stanley Veach, of Lexington.

The Range is the Heart of the Kitchen

and the kitchen is the heart of the home. The health and happiness of the whole family depend on what they eat. Don't blame the cook if the food is made indigestible by poor cooking. Get her an

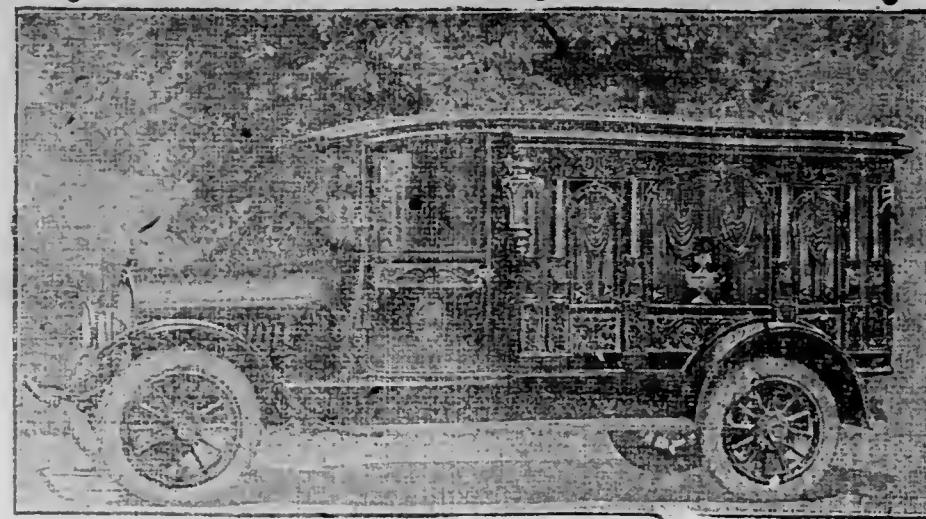

ALLEN'S PRINCESS COPPER IRON RANGE

and give her abilities a chance. It's even baking oven takes the chance out of cooking, and its many features for saving time and labor eliminate kitchen drudgery. Notice the 10-gallon copper reservoir adjoining fire-box, the handy warming cabinets, and the clean, roomy warming closet with pipe behind it; also the asbestos lined oven with triple bottom and walls which retain heat and insure even baking.

The Princess is easily the leading range on the market—tested by 25 years of constant service.

W. F. HIGGINS

UNDERTAKING DEPT.

Our Undertaking Department, installed under the personal supervision of Mr. W. E. Richards, at the time we took over it, Mr. Neale Bennett & Company, is as complete a service as can be found in Kentucky. We are highly appreciative of the consideration we have had in this department from all parts of the county. It is our intention to furnish a service that will satisfy in every way, with thoughtfulness and care, a quiet unconventionality, yet with assurance that no detail will be omitted that may be necessary. And yet our service can be obtained upon the most reasonable terms, and we invite your patronage at any time that we can serve you. Our new funeral car is the latest in design and equipment and of a quiet elegance that is approached by few other cars of the kind.

Muncy Brothers

LEGION IS WORKING FOR EX-SERVICE MEN

By Associated Press

Indianapolis, Ind., Jan. 25.—Franklin D'Olier, National Commander of The American Legion, today issued the following statement with regard to the service the Legion has undertaken to render ex-service men:

"At each of the seven thousand Local Posts of The American Legion

throughout the country, is a War Officer who has been instructed to take up with various Governmental Bureaus in Washington, or branch offices, any cases with regard to ex-service men that may be brought to their attention calling for Governmental action. Such cases as they deem worthy of the advice of the State War Risk Office are forwarded to him. Where the case cannot be handled by State Department Officers, it is forwarded to State Headquarters, and may in turn be submitted to National Headquarters for attention,

where the Headquarters service is required. Thousands of these difficult or extraordinary cases involving questions of law and procedure or delayed cases are received at National Headquarters daily.

"Most of these appeals consist of various claims against the Government growing out of a man's service in the Army, Navy or Marine Corps. They relate for the most part to compensation, allotments, Liberty Loan Bonds, vocational training and insurance.

"In a period of two months, for ex-

ample, National Headquarters has been instrumental in collecting for ex-service men \$16,650 in Liberty Loan Bonds and \$16,430.90 in allotments and allowances.

"Charles F. Sheridan, in charge of the Service Division at National Headquarters, and formerly connected with War Risk Insurance Bureau at Washington, is in charge of this branch of the service. His intimate knowledge of the workings of various Governmental Bureaus in Washington enables him to render with the utmost dispatch this service to the ex-service men to appeal their cases to the War Department."

DODDSVILLE

Mr. and Mrs. Charlie King and sons were the guests of Mr. and Mrs. Henry King, Seneca.

Mr. Norton Jones, who has been very ill passed away at his home at Brasfield Wednesday evening. The remains were laid to rest in the Red Hill cemetery Saturday.

Mr. Edgar King spent Sunday with his parents, Mr. and Mrs. Henry King.

First Woman Journalist

Mrs. Anne Royall, born in Maryland, in 1769, was not only the first woman journalist, but the first of her sex to own and edit a newspaper. She was the widow of a Virginia revolutionary war officer, and appeared in Washington in 1824 for the purpose of trying to secure a government pension. Falling in this, she started a small weekly sheet which was first called the "Washington Paid Spy" and later the "Humble." She had met personally and talked with every president from Washington to Lincoln, and was the terror of politicians.

Irresistible in Business

The good-natured man with a well-balanced mind is irresistible in business; he goes around flashing his cheerfulness to right and left unconsciously. He does not need to be easy to be good natured. He can be firm from his principles, and yet he can assert himself in that quiet, sincere way which wins the respect even of his opponents."—From *The Northwestern Buzzer*, published by Northwestern Electric Equipment company, St. Paul, Minn.

BENTON, TENNESSEE

Modern Merchandising and Advertising

By FRED P. MANN, Devil's Lake, N. D.
President North Dakota Retail Merchants' Association

(Continued From Saturday's Paper)

I know it is a fact that a great many men believe as Gospel truth that the great packers, the operators of flour mills and other advertisers, are spending their money for the Saturday Evening Post to keep it from attacking them and exposing them as robbers and thieves. If the mills would take off their traveling men, quit newspaper advertising, take down their billboards, in two years the Crosby Mills would close their doors. I was talking to Mr. John Crosby of Minneapolis on this subject. I made the same statement to him and he replied: "Well, you are probably making it pretty strong, but there wouldn't be very many mills running if we didn't use every method we know to keep this stuff going right from the mill to the business place. There would be nothing to it." I believe that the great packers in advertising have created a wonderful demand, and I don't believe that the attacks on the packers are just. Those men have used all their energy and effort not only to market that stuff in the United States, but all over the world. But so many of the people don't understand this great machine of distribution that we have. And that must be followed out.

Advertising Costs Nothing.

Does advertising increase or decrease the cost of merchandising? We are spending between ten and twelve thousand, I figure it doesn't cost us anything. If I stopped that my business would begin to sag immediately. We will sell more merchandise this year. Our overhead is all set, our rent is so much, our light so much, our delivery service there. We would do, yes, three hundred thousand dollars more with that overhead. I will have to add a little extra help to handle it, and I will make by this intensive advertising enough more profit, so that my advertising will not cost me anything. I will clean up on advertising. This is not a ridiculous statement. If I did not keep up advertising my business would sag. I could not do it. My salary is there, it doesn't make any difference. The manager's salary is there. If the sales come up better, he may get more commission at the end of the year. But all in all, a trim profit accumulates if you get to a certain stage. If you can put on that extra effort, it is a well-known fact that the cheapest method of selling merchandise today is by advertising. There is no other method of salesmanship I know of, that will compete with it. I believe absolutely that if nine-tenths of these non-advertisers did advertise it would cost them not one cent. In fact I venture to say, they would make very far on that. Always be fair and square, I actually believe. If you would all get together on that basis, it would bring people here. This advertising two or three times a year don't amount to anything. Keep it up all the time, year in and year out. Grocerymen, by all means advertise. The people like to see a little change, what is going on, and you wouldn't have to cut the price at all.

When you go into it, get in right. I went into a small town and into a newspaper office and noticed a chart running a clearance sale. In July, I went over to the store to see how the sale was going. There were no goods displayed in the window. I stepped inside and couldn't see anything of the sale. Nothing on the counters. I said "Have you got a sale on? I saw an ad in the paper." "Oh, yes, all those goods on the shelf are on sale." I immediately went out and got a dispatch to a newspaper in St. Paul to show them just what my point was. Then I got the jobbers and showed them how they must insist upon the merchant advertising the ad he puts in the paper with his business.

Must Get Together.

I was down in Minnetonka, when an ad man told me he got the merchant to advertise. That morning of the sale, the clerks didn't even know what was on sale until they looked in the newspaper. If we could only get together once in a great campaign and agree to advertise! Don't do it haphazardly. Do it thoroughly.

When we come to the store in the morning the managers come in to see me. Planning all around, we talk it over, and plan it. It is done constructively. It isn't just putting in something and throwing in a few curs. The same way in groceries. If you are going to advertise and sell a certain line of pickled goods, or canned goods, put in the price and set them out. Have a little table or stand and put them out. Tag them up. In our sale last fall I asked the National Biscuit Company to give us a demonstration. A man came and brought along about \$1,200 worth of sample crackers. Every lady that came in was asked to sample the crackers. We said they were on sale, so many pounds for so much on that day. On one day we sold over \$800 worth of crackers. It will surprise you how people will come in, help themselves and take away orders with them.

Discussion Is Held.

At the conclusion of the address, it was announced that Mr. Mann was prepared to answer any questions that might be propounded to him by his hearers.

"What have you to suggest about Community advertising, something that will help the community?" he was asked.

"To bring business to the town, I believe if you could have co-operative advertising it would pay. Get out a big edition to your paper, everybody

MRS. ELMORE WAS BORN IN RICHMOND IN 1833

Many relatives and friends in Richmond and the county will regret the death of Mrs. Elmore, who was an aunt of Mrs. Hattie Buchanan, Miss Belle March and Mrs. Jefferson Stone of Nicholasville. Of recent years she made her home in Illinois. The following clipping from an Illinois paper says:

Mrs. Edith March Elmore

Died at the home of her daughter, Mrs. James Gailbraith, on Dec. 12, 1919 aged 86 years, 7 months and 27 days.

The deceased was born at Richmond, Ky., on April 15, 1833 and on Sept. 2, 1866 she was united in marriage to Mr. Robert Elmore and they immediately moved to Illinois, first locating at Bloomington, where they resided for a short time. They then moved to a farm near Forrest and this section and city was her continuous home since. Mr. Elmore died Aug. 3, 1906, and the widow remained upon the farm until six years ago when she went to spend the sunset hours of life at the home of her daughter, Mrs. Gailbraith. Mrs. Elmore was a most loving wife and mother, a most excellent neighbor and a friend who was greatly cherished.

She leaves to mourn her death two sons, James, of Chatsworth, and Wm., who resides at Forrest, and two daughters, Mrs. James Gailbraith, of Forrest, and Mrs. Susan Wilson, of Toledo, Iowa.

Funeral services were held from the home of her daughter on Sunday afternoon, Dec. 14, Rev. H. F. Servine officiating, and the funeral was largely attended. The remains were laid to rest in Forrest cemetery.
